

**Proceedings of the Public Hearing conducted on 14.03.2012 at 02.30 p.m.in connection with application filed by Department of Industries & Commerce, Govt. of Punjab, for obtaining environmental clearance under EIA Notification dated 14/9/2006 for the mining site at 8.00 Hectare Village Trehti Narangpur, Tehsil & District Pathankot.**

The following were present to supervise the proceedings:-

1. Smt. Sarojini Gautam Sharda, (PCS)  
Additional Deputy Commissioner,  
Pathankot.
2. Er. Sandeep Bahl,  
Environmental Engineer,  
Punjab Pollution Control Board,  
Regional Office, Hoshiarpur.
3. Er. Ashok Kumar Chalotra,  
Asstt. Environmental Engineer,  
Punjab Pollution Control Board,  
Regional Office, Hoshiarpur.
4. Er. Prem Kamal,  
Asstt. Environmental Engineer,  
Punjab Pollution Control Board,  
Regional Office, Hoshiarpur.
5. Sh. Balwinder Pal Singh  
General Manager,  
District Industries Centre-cum-Mining Officer,  
Pathankot.

Environmental Engineer, Punjab Pollution Control Board, Regional Office, Hoshiarpur welcomed the Supervising-cum-Presiding Officer and people from the Trehti Narangpur Village who came to attend the public hearing for mining sites in the revenue estate of **Village Trehti Narangpur, Tehsil & Distt. Pathankot**. He apprised the public about the requirement of conducting the public hearing before grant of environmental clearance under EIA Notification no.1533 (E) dtd.14.9.2006 of the Ministry of Environment and Forests, Govt. of India, New Delhi. He also brought into the notice of public that the Department of Industries & Commerce, Govt. of Punjab has submitted copies of draft rapid EIA report alongwith the Executive Summary of the same and a copy of each such document was placed in the office of Deputy Commissioner, Pathankot; Zila Parishad, Gurdaspur; General Manager District Industries Centre, Pathankot; Executive Officer, Municipal Council, Pathankot, Regional Office of MoEF at Chandigarh and Regional Office, Punjab Pollution Control Board, Hoshiarpur for access to the public and other stakeholders. He further brought out that a notice of public hearing was published in three prominent newspapers 'Hindustan Times' & 'The Tribune' & 'Daily Ajit' on 9.2.2012(**Annexure –A**) to make the public aware of the date, time & venue of the public hearing and about the places/offices where the public could access the draft EIA report and its Executive Summary report before the said hearing. He informed that today's Public hearing is being conducted for the mining

area of **8.00 Hectares** located in Village: **Trehti Narangpur, District: Pathankot** as per application submitted by the Project Proponent i.e. Department of Industries and Commerce, Government of Punjab, Chandigarh through Mining Officer, Pathankot. District Pathankot.

He further intimated that pursuant to the publication of Public Notice regarding conduct of Public Hearings; an office order was issued by Deputy Commissioner, Pathankot Vide No. 926-27 dated 16.02.2012 (copy enclosed **Annexure-B**) regarding Supervision of Public hearing and direction to concerned area Sub-Divisional Magistrate for conducting Mustri Munadi through Halqua Patwari on a day prior to Public hearing to ensure maximum participation of public for decision making. Further District Public Relation Officer was also requested to give wide publicity in the print & electronic media to ensure maximum participation of the public vide Punjab Pollution Control Board vide letter No. 1278 dated 13.02.2012. Sarpanch & Chowkidar of the Village **TrehtiNarangpur, Tehsil & Distt.Pathankot** has also submitted Certificate regarding conducting of Munadi through Village Chowkidar & Local Gurudwaras/ Mandir as well as through distribution of Pamphlets (**Annexure C**). He also informed that details of khasra Nos. duly signed by Mining Officer alongwith Coloured copies of proposed mining area has been displayed on the Notice Board at the venue of Public hearing for convenience of the public which are placed as per **Annexure –D&E**. Proposed Mining site was properly explained by the Halqua Patwari, which has also been video recorded, photographed and forms a part of the proceedings of Public hearing.

**He also informed that Divisional Forest Officer, Pathankot was requested vide Punjab Pollution Control Board, Regional Office, Hoshiarpur Letter No. 1406 dated 17.02.2012 to be present during the Public Hearings for their comments, views, suggestions & objections regarding proposed mining projects on behalf of his department, considering the fact that near most of the proposed river bed mining sites, there is possibility of forest land / wild life sanctuary/ protected forest area.**

He further informed the audience that being a Category 'A' project the EAC / SEAC has determined detailed and comprehensive TOR (Terms of Reference) addressing all relevant environmental concerns for the preparation by an EIA report in respect of mining project for which prior environmental clearance is sought of Department of Industries & Commerce through Mining Officer, Pathankot. Copy of the TOR (Terms by Reference) enclosed as per **Annexure-F**. He apprised the audience of some of the following important points of Terms of the Reference (TOR), which are part of Draft EIA report submitted by the Project Proponent.

- The terms and conditions imposed, if any, by the Competent Authority in the State Government while granting mining lease/ permit/ contract should be built into the mine plan (Eco friendly Mine Plan) as well as the EIA report. It may inter-alia include; area of working (length and breadth of the river stretch), mode of working, working shift, transportation of mineral, restriction, if any imposed for working etc.
- Involvement of the forest land, if any, in the project and status of forestry clearance should be given.
- The study area will comprise of 10 km zone around the mine lease from lease periphery and the data contained in the EIA such as waste generation etc should be for the life of the mine/ lease period.

- Land use of the study area delineating forest area, agricultural land, grazing land, wildlife sanctuary and national park, migratory routes of fauna, water bodies, human settlements and other ecological features.
- Land use plan of the mine lease area should be prepared to encompass pre-operational, operational and post operational phases.
- Impact of the project on the wildlife in the surrounding and any other protected area and accordingly detailed mitigate measures required should be worked out with cost implications.
- The vegetation in the RF/PF in the study area, if any.
- A study shall be got done to ascertain the impact of the mining project on wildlife of the area including on the elephant population.
- Location of National Parks, Sanctuaries, Biosphere Reserves, Wildlife Corridors, Tiger/Elephant Reserves (existing as well as proposed) within 10 KM of the mine lease should be clearly indicated.
- A detailed biological study for the study area [core zone and buffer zone (10 KM radius of the periphery of the mine lease)] including the aquatic fauna in the riverine system shall be carried out.
- Impact on topography, drainage, agricultural fields, wildlife, water logging leading to water borne diseases, if any. It may also be shown whether it will lead to change of water course of the river. Modeling exercise should also be carried out through an expert agency to show the change in river flow dynamics, if any.
- Collection of one season (non-monsoon) primary baseline data on ambient air quality (PM10, SO2, and NOx), water quality, noise level, soil and flora and fauna.
- Air quality modeling should be carried out for prediction of impact of the project on the air quality of the area.
- Impact of the project on the water quality should be assessed and necessary safeguard measures, if any required should be provided.
- Information on site elevation, working depth, groundwater table should be provided both in AMSL and bgl. A schematic diagram may also be provided for the same.
- Quantity of solid waste generation, if any, to be estimated and details for its disposal and management be provided.
- Impact on local transport infrastructure due to the project, Projected increase in truck traffic as a result of the project in the present road network (including those outside the project area) and whether it is capable of handling the increased load. Arrangement for improving the infrastructure, if contemplated including action to be taken by other agencies such as State Government, if any, should be covered.
- Details of the infrastructure facilities to be provided for the mine workers.
- Phase-wise plan of greenbelt development, plantation and compensatory afforestation clearly indicating the area to be covered under plantation and the species to be planted.
- Occupational health impact of project should be anticipated and prevention measures initiated. Details in this regard should be provided.
- Details of pre-placement medical examination and periodical medical examination schedules and medical facilities proposed to be provided should be incorporated in the EMP.
- Measures of socio economic influence to the local community proposed to be provided by project proponent. As far as possible, quantitative dimension to be given.
- Detailed environmental management plan to mitigate the environmental impacts. Specific safeguard measures to control PM10 as well as pollution due to transportation should be given.
- Public hearing points raised and commitment of the project proponent on the same along with time bound action plan to implement the same should be provided.
- Details of litigation pending against the project, if any, with direction/ order passed by any Court of Law against the project should be given.
- The cost of the project (capital cost and recurring cost) as well as the cost towards implementation of EMP should clearly be spelt out.
- All documents to be properly referenced with index, page numbers and continuous page numbering.

- Where data are presented in the report especially in tables, the period in which the data were collected and the sources should be indicated.
- Where the documents provided in a language other than English, an English translation should be provided.
- The questionnaire for environmental appraisal of mining projects as devised earlier by the ministry shall also be filled and submitted.
- Approved mine plan along with copy of the approval letter for the proposed capacity should also be submitted.
- While preparing the EIA report, the instructions for the proponents and instructions for the consultants issued by MoEF vide O.M. No. J-11013/41/2006-IA.II(I) dated 4<sup>th</sup> August , 2009, which are available on the website of this ministry should also be followed.

Environmental Engineer further apprised the audience of the fact that mining has to be carried out as per Environmental Impact Assessment Guidance Manual for Mining of Minerals as published by Ministry of Environment Forests, New Delhi through Administrative Staff College of India, Hyderabad which includes some of the additional points to be taken into consideration for Environment friendly mining. In addition to some of the points already raised in Term of Reference; following issues will also be monitored:

- The mining has to be carried out only upto 3 mtrs. (BGL) Below Ground Level and Mining has to start after date of opening of Mining Activities i.e. after grant of Environmental Clearance.
- Whether there is involvement of any Forests land in proposed area of Mining.
- Whether there is any Wild Life Sanctuary within 10 Kms. from the area of proposed mining project.
- There will not be any quarry operation within the distance of 75 m from railway line / 50 m from reservoir tank, canal, public road, building and in-habitat sites etc.
- Whether there is any Defence establishment near by the area of proposed mining project.
- Mining will not be allowed below water the table.
- The mining should be prohibited to distance of 500 m on upstream and downstream from the high level bridge and 250 m form the other bridges on upstream and down stream

He also pointed out that project proponent is legally bound to get necessary approvals 'if applicable' from other departments like Forest Department & Ground Water Board under relevant Acts & Rules for the Proposed Mining Projects. He further informed that around 60 persons are present in the Public hearing out of which 53 have signed the attendance register.

Thereafter, he requested the Project Proponent i.e. Mining Officer, Pathankot to elaborate the main features about the project and the draft EIA study report. Mining officer, Pathankot Sh. Balwinder Pal Singh gave the description of the site for which Environmental clearance is sought. He intimated to the public that total proposed mining land as indicated in Draft EIA Report has been shown as Govt. waste land and he also submitted copy of signed list of khasra Nos. of proposed mine lease which has not been demarcated as of now.

However these Khasra Nos. of proposed mining site includes Private Land. In majority of the proposed mining area, deep mining has been carried out in patches at some places, even beyond 3 Mtrs. BGL thereby surpassing restrictions to be imposed in proposed Environmental Clearance which was videographed and photographed depicting damage already done to the Environment.

Then he introduced and invited Sh. Kuldeep Singh Representative of M/s Grass Roots Research & Creation India (P) Ltd, Noida, Consultant of Department of Industries & Commerce to elaborate about the main features of the project and the draft EIA study report.

**Sh. Kuldeep Singh** of M/s Grass Roots Research & Creation India (P) Ltd, Noida engaged by Department of Industries & Commerce, for conducting the EIA study for this project brought out the details of the project before the public as under:-

- 1) The development of the infrastructure is based upon the building materials such as sand and gravel for which controlled mining at the source is required. Govt. of Punjab has to allot / earmark the various sites from which the mining of minerals has to be undertaken. Accordingly, this site is also one of such site from where mining is to be carried out, hence the environmental clearance is required.
- 2) **PROJECT DESCRIPTION**  
As per the Eco-friendly Mining Plan, it is a proposed project to mine Sand/Gravel and the estimated project cost is **70.00 Lacs**. Department of Industries and Commerce, Chandigarh (Punjab), though has not yet notified the mining lease of Sand/Gravel in the name of **Trehti Narangpur, Taluka: Pathankot**, Punjab. The mining lease / proposed project area falls in Survey of India Toposheet No. **43P/15**. The mine lease area is located between **32°17' 46.95" to 32°18' 0.49" N Latitude and 75°46' 46.65" to 75° 46' 57.54" E Longitude**. The River bed is having **8.00 Hectare** area which with approx. **1,00,000 tonne** per year of Sand/Gravel deposit in it, which is replenishable due to sediment Inflow.
- 3) The mining will be carried out by excavator of 1.1 cubic meter capacity. No drilling or blasting will be carried out at the site and the mining will be with simplest procedure of lifting the material and loading to the vehicles mechanically. The mining will be done upto working depth of 3 m BGL only.
- 4) Baseline data has been collected with respect to land, water, air, ecological and noise in the area of 10 km radius surrounding the site.

He further informed that as mentioned in Draft EIA item No. 1.2 as well as in TOR (Terms of Reference), the mining area has not been notified by Department of Industries Govt. of Punjab.

- 5) Mitigation measures for different Environment parameters:
  - A) **Air Environment:** The dust emitting will only be possible from the movement of the vehicles for which water spraying will be carried out on the road. Overloading of vehicles will not be allowed.
  - B) **Water Environment:**
    - There will be no degradation of water quality, only natural flow of the river will be maintained.
  - C) **Soil Environment:**
    - The mining will not effect in any way the quality of the soil as the level of the area lowered by the mining will be compensated by the flowing river, during rainy season.

**D)Noise Environment:**

- There will be no heavy machinery to be used in the mining, the possible noise will be from movement of vehicles only.
- The movement of vehicles will be restricted to the day time only with minimum use of horns.

**E)Social Aspects**

- River channel will be controlled and protection of banks will lead to safety of adjoining agricultural land.
- Employment will be generated hence improvement of socio-economic aspects of the area.

6) Budget for Implementation of Environmental Management Plan

**Cost of EMP**

<b>S. No</b>	<b>Description</b>	<b>Cost to be incurred (in lakhs/annum)</b>
1	Air Quality a) Monitoring in the vicinity of the mine b) Monitoring in the vicinity of the transportation network c) Cost of dust suppression	1.16
2	Water Quality a) Water quality of surface and groundwater around the site b) Drinking water must conform to drinking water standards	0.84
3	Ambient Noise Level	0.24
4	Soil Quality	0.38
5	Socio-economic condition of local, population, physical survey	0.18
6	Man power cost for environmental cell	0.7
	<b>TOTAL</b>	<b>3.5</b>

Thereafter, Additional Deputy Commissioner, Pathankot informed the public present that as per the provision of EIA notification dated 14.9.2006 as amended from time to time, the persons present at the venue may seek information or clarifications on various issues related to proposed mining project from the project proponent/consultant. He also informed the public that the information or clarifications sought by them and reply given by the project proponent / consultant will be videographed and will also be incorporated in the proceedings of the hearing, which will be sent to the Ministry of Environment & Forests, for further consideration. Accordingly, she requested the persons present in the hearing to seek information or clarifications on the project one by one without any fear, pressure or favour.

Thereupon, the detail of the information/ clarifications raised by the persons present at the venue of hearing and the reply given by the consultant of the industry / project proponent is as under:

S. No	Name of the person	Questions/ query / statements of the person	Reply / clarification given by the company/ panel member
1.	Sh. Parveen Singh, Sarpanch, Village Trehti Narangpur, Tehsil & District Pathankot.	<ul style="list-style-type: none"> <li>• Mining has been carried out and should also be carried out but after considering that there should not be any damage to water level, Environment, farmers &amp; drains (Kools).</li> <li>• If mining is carried out, then we get benefits like we get employment.</li> <li>• No royalty should be charged from villagers if they are in need of sand/gravel for construction of their houses.</li> <li>• The land belonging to said Khasra nos. has already been sold out, so names of new owner is not known, that should be announced.</li> <li>• Panchayat has got compensation for mining which was carried out earlier in our village.</li> </ul>	<ul style="list-style-type: none"> <li>• Suggestions/Comments/ Objections/ Views were well recorded</li> </ul>
2.	Sh. Bishan Singh, Village Trehti, Tehsil & District Pathankot.;	<ul style="list-style-type: none"> <li>• My land is in village Trehti around which up to 30-30 ft. deep mining has already been carried out by the stone crusher that has ruined my agriculture.</li> </ul>	<ul style="list-style-type: none"> <li>• Suggestions/Comments/ Objections/ Views were well recorded</li> </ul>
3.	Sh. Bashira Singh, Village Landetiya, Tehsil & District Pathankot	<ul style="list-style-type: none"> <li>• We have no objection on the project. The main objection is that on one side of Chakki there is Himachal and on other side there is Punjab. The Himachalis says that the mining is carried out by the Punjabis &amp; Punjabis says that mining is carried out by Himachalis. Due to which the area has been destroyed.</li> <li>• Nearby Trehti there is forest area, which is covered under section 4 in Punjab and under section 6 of forest conservation act in Himachal. The whole land has been dug, due to which the adjacent land has also become barren and land owners have become unemployed.</li> <li>• The bridge has been destroyed due to mining of Chakki river. Due to which firstly the Highway bridge</li> </ul>	<ul style="list-style-type: none"> <li>• G.M, DIC-cum Mining Officer, Pathankot said that if the private land has minerals, their mining rights are with Govt. and mining will be carried out there.</li> <li>• Mining will be carried out, firstly we will pay compensation / royalty which as per norms &amp; rules which comes out to be approximately 1/2 the additional amount.</li> <li>• He said that there is no auction for lands cover under forest conservation Act. Earlier rules said that the compensation is to be paid by the contractor. Now as per High Court. We are writing registered</li> </ul>

		<p>got damaged after that the railway bridge got eroded.</p> <ul style="list-style-type: none"> <li>• Mining project don't allow us to get sand/bajri from our own land. They charge Rs. 300-1200 per vehicle/Trolley from us.</li> <li>• Due to mining taking place in 1 Acre, we got Guide Bandh constructed from Govt. funds and saved our land. Like the whole area of Saili Kullian has been eroded. We are in process of installing Guide Bandh by getting money from Govt.</li> <li>• We request that while taking final decision on the project, our area and land owners should also be kept in mind. If we cut trees and get wood from the forest, then we are prohibited as per section 04 and FIR is filed against us. But if mining is carried out in this area covered under section 04 no the action is taken against them. We have objection on it. That will save our future, atmosphere and livelihood future generation.</li> <li>• There was some area in Village Nangal Bhoor where earlier agriculture was being carried out and people were getting employment. But due to lowering of water level by 20 ft. in Chakki, we are unable to irrigate as a result our land is becoming barren. There should be an arrangement of livelihood water and more hand pumps should be installed.</li> <li>• Mining should be carried out but owner should also be allowed to get sand/bajri from their own land.</li> <li>• No one has got compensation from Sailli Kullian. The contractor that takes material have not given any compensation to owners. This is totally injustice.</li> <li>• I have already said that the Himachalis says that the mining is carried out by the Punjabis &amp;</li> </ul>	<p>letter to Panchayats on whose land mining was carried out in 2008. If they do not get letter within 01 week they may get their compensation from Mining office, Pathankot.</p> <ul style="list-style-type: none"> <li>• There is no written report from the private owners that the mining has been carried out without compensation. If anyone wants to give written report, regarding the same then he may come to the office. We haven't returned the contractors money, so far We are paying compensation to the Panchayat from it and will also pay compensation to the Private owners out of this security.</li> <li>• Thereafter the Hon'ble Additional Deputy Commissioner said that as the GM, DIC said that if the private owner haven't got compensation they should submit written complaint case in the office of Mining Officer. Pathankot Complaint of unauthorized mining should also be filed and If nothing is done after filing complaint, then they may bring it into her notice and she will take further necessary action.</li> </ul>
--	--	--	--

		<p>Punjabis says that mining is carried out by Himachalis. There is no land of Panchayat or forest department. This is private land even then we are covered under section 04 Forest Conservation Act.</p> <ul style="list-style-type: none"> <li>• Even for burial it is not allowed to dig the land up to 05 ft, but mining is allowed up to 20 ft.</li> </ul>	
4.	Sh. Mahinder Singh, Village Narayanpur, Tehsil & District Pathankot	<ul style="list-style-type: none"> <li>• Chakki river is coming from the top, the flow of water containing sand, bajri is fast. Even the flowing water also carries out large stones. The above land is 4000 hectares, there is garden in it, the land is agricultural land. All source of water are finishing due to lowering of water level.</li> <li>• There is unauthorized mining. Himachal has already been carrying out and Punjab is also carrying out. Our village complained about it but no one listens to us. We complained to Thanedar and even to SSP.</li> <li>• Himachal Police arrested us, what crime we have done. Our land is being destroyed. They say that we have broken their JCB and tippers. We are being forced by them. Our future is getting ruined. As you have seen that the land of Village Mammon, Attwal, Jandwal has been eroded, only this land is safe, which will also be eroded, after mining.</li> <li>• You will allow mining, then land and source of water will be ruined.</li> </ul>	<ul style="list-style-type: none"> <li>• Suggestions/Comments/Objections/ Views were well recorded</li> </ul>
5.	Sh. Parbhat Singh, Village TrehtiNarangpur, Tehsil & District Pathankot	<ul style="list-style-type: none"> <li>• This Narainpur area has 5-7 villages, they have 200 acres land, they all get employment from it.</li> <li>• The boundary of Himachal is also adjoining to it. Himachal Govt. has given mining lease. As there is no demarcation they are even putting their machines in Punjab and carrying out mining there. If they complain about it F.I.R. is registered against them in</li> </ul>	<ul style="list-style-type: none"> <li>• Suggestions/Comments/Objections/ Views were well recorded</li> </ul>

		<p>Himachal. In this regard, no one is there to listen to them.</p> <ul style="list-style-type: none"> <li>• If illegal mining of Himachal cannot be stopped it will destroy our whole 200 acres land.</li> <li>• If mining is allowed in Trehti then lot of people will get employment. This is the area of labourers, the area of illiterates. But firstly Narainpur should be heard, which is 10-15 km away from here, otherwise their land will be destroyed. The matter is of Himachal Govt. not of Punjab Govt.</li> </ul>	
6.	Sh. Arjun Singh, Village Haryal, Tehsil & District Pathankot.	<ul style="list-style-type: none"> <li>• The stone crushers are in need of mining. But anyone may be asked whether it is right. In summers there will be no drinking water in Chakki River.</li> <li>• Our elders existed by virtue River Chakki. Mining should be stopped. The distance of Chakki is not more than 1 km. There is deep mining occurring adjacent to my land. In this regard I will go to the Supreme Court.</li> <li>• Earlier it was said that the mining will not be carried out through JCB machines. But now JCB machines are running round the clock. Whether it is legal to carry out material through JCB.</li> </ul>	<ul style="list-style-type: none"> <li>• Suggestions/Comments/Objections/ Views were well recorded</li> </ul>
7.	Sh. Kuldeep Singh, Village Trehti, Tehsil & District Pathankot	<ul style="list-style-type: none"> <li>• This is related to Haryal. We are owners of land in Trehti. We have no objection for carrying out mining in Trehti. There is no objection by any children/elders of the village.</li> </ul>	<ul style="list-style-type: none"> <li>• Suggestions/Comments/Objections/ Views were well recorded</li> </ul>

Environmental Engineer requested the public if anyone else want to ask any question about the proposed project, but no one came forward. He further informed that no written objections/ suggestions have been received regarding the proposed mining site.

As EIA study has been carried out by the Project Proponent through its consultant without demarcation of proposed mining site and without taking into consideration site specific ground realities. The Project Proponent was asked to officially own data used/ generated during EIA study which has been incorporated in Draft EIA Report. General Manager, DIC-Cum-Mining

Officer, Pathankot has submitted a letter issued by Director of Industries & Commerce, Punjab, Chandigarh in this regard stating that "*it is not feasible to certify the data and other information included in the EIA / EMP reports prepared by the Consultant Firm at this juncture as the reports are yet to take final shape*" has been annexed alongwith this report as **Annexure –H**.

The representative of the Project Proponent i.e. Mining Officer, Pathankot asked to furnish details of Khasra Nos. of Village Trehti Narangpur for which Environmental Clearance is sought. Consequently, **Sh. Balwinder Pal Singh, Mining Officer, Pathankot clarified that the proposed mining area as recorded in TOR issued to them is 8.00 Hectares and accordingly Draft EIA report the land has been prepared for 8.00 Hectares.** He also submitted duly signed copies of the actual proposed mining area falling in Khasra Nos. 329/261 (13-0), 331/263 (16-2), 262 (44-11), 267 (115-6) Village Trehti Narangpur which is attached herewith as per **Annexure-G**. **It is reiterated that total proposed mining land as indicated in Draft EIA Report has been shown as Govt. waste land however actually it is private land.**

The public hearing ended with vote of thanks to Presiding Officer-cum-Supervisor and the public present in the hearing.

Copies of DVD's of video recording and still photography of the Public Hearing are enclosed which may please be considered as a part of the proceedings.
